Battery-Star, 4,5V/6W

ST 045

PORTABLE BATTERY SOLDERING IRON

Mobile battery-soldering-iron. Indispensable for on the way or at unapproachable positions. Powered by three customary Mignon-Cells. The present-day mobile and flexible requests in the electronics necessitate new tools, that guarantee the professional use.

The new tip-system is outstanding with an extremely short preheating time. An optimal heating power is reached by the tips with integrated heating element.

Not least, that convinces ergonomic shaped, extremely space-saving soldering-irons but also the price-performance ratio.

Technical Data:

- Operating Voltage: 4,5V / 6W
- Performance: 6W

Delivery capacity:

- Battery soldering iron ST 045 4,5V/6W
- Soldering tip with integrated heating element "pencil-shaped"
- Tool to the change of the soldering tips
- Solder wire 1 mm 50 cm
- Instruction manual

Delivery takes place without batteries!

3 pieces Mignon membrane cells (type AA) necessary
